BRIDGE COURSE
2022-2023

"THE ESSENCE OF EDUCATION LIES IN DRAWING OUT THE VERY BEST THAT IN YOU"

A bridge course is a series of classes that help students transition from intermediate level to graduation by providing them with necessary skills and knowledge about topics that will be covered in there new course

Objectives:

- The main objective of the course is to bridge the gap between subjects studied at pre-university level and subjects they would be studying in I Year all degree.
- To enrich the students to learn basic concepts in the subjects of all degree I semester.
- To the students confidence and skills to successfully transform to collegeand new curriculum.
- Interactive and active learning by doing have been waved intothe bridge course.
- Active learning with the help of other/ peer students
- To achieve the concept of assisted learning

Standard operating procedure

Abridge course for newly admittedb.com students is conducted every year before commencement of first semester classes. The syllabus for degree course is designed in such a way that, equal importance is given to both commerce discipline subjects and personality development.

Bridge course helps the student to open up. Think creativity and become responsible and independent students

Highlights of the bridge course:

Hindi is not only the national language of India, but also a global language, so Hindi students should be motivated to study Hindi language

Mainly we focused on spoken Hindi techniques to let them explore rural India especially northern India for business job or tour. These techniques will definitely help the students to understand everything in day-to-day life in North India if want to study or settle there.

In the bridge course, the topics covered are the origin and scope of Hindi language, fundamentals in spoken Hindi, basics in Hindi grammar, administrative terminology, letter writing. The 'NE' rules. Using phase words into own sentence

DEPARTMENTOF ECONOMICS

BRIDGE COURSE 2022-23

"THE ESSENCE OF EDUCATION LIES IN DRAWING OUT THE VERY BEST THAT IS IN YOU"

A bridge course is a class or series of classes that help the students transition from +2 to college by providing them with the necessary skills and knowledge about the topics that will be covered in their new courses.

OBJECTIVES:

- The main objective of the course is to bridge the gap between subjects studies at pre level and the subjects they would be studying in graduation.
- To enrich the students to learn basic concepts in the subjects of BA course.
- To give students confidence and skills to successfully transform to college and new curriculum.
- Interactive and Active Learning - doing have been weaved into the Bridge Course.
- Active Learning with the help of other/peer students.
- To achieve the concept of Assisted Learning.

Standard Operating Procedure

- A Bridge course for newly admitted BA students is conducted every year before commencement of First Semester classes. The syllabus for the BA courses designed in such a way that, equal importance is given to both Economics discipline subjects and personality development'
- Bridge Course helps the students to open up, think creatively and become responsible and independent students. It also helps smooth transition arts course. The sound grasp of the fundamentals of ECONOMICS subject by the students lays the strong foundation for the entire Three/Four Years Programme.

Highlights of the Bridge Course:

MICRO ECONOMIC ANALYSIS:

Smt. CV. Ramalakshmi, Faculty, Department of economics explained in detail about the basic economic concepts. She elaborated the concepts with real world examples. She also explained the role of a person as consumer in achieving the economic goals of the life with help of the basic knowledge of economics.

She narrated the live incidents of economic problems of a nation and economy and the role of the governments in providing the economic welfare of the people in a nation'

DEPARTMENT OF POLITICAL SCIENCE

BRIDGE COURSE 2022-2023

ABOUT BRIDGE COURSE:

A bridge course was organized for the First- Year arts students. It is conducted to boost up the academic skills and confidence of students in the learning process. It helps bridge the curriculum of the previous system and the new system, ensuring that students have a solid foundation in the subjects they will encounter in the new system, thereby minimizing the risk of knowledge gaps.

A bridge course is a series of classes that help students transition from intermediate level to graduation by providing them with necessary skills and knowledge about topics that will be covered in their new course.

AIMS AND OBJECTIVES OF THE BRIDGE COURSE

- The main motive behind pursuing a bridge course is to help students get admission into the degree programme of their choice without repeating a year of study. bridge course also known as preparatory course or foundation courses.

THE SPECIFIC OBJECTIVES OF THE BRIDGE COURSE ARE:

- To enrich the students to learn basic concepts in the subjects, politics (humanities/Arts) of B.A I Semester.
- To provide adequate foundation for the students to demystify various new topics in each of the courses.
- To identify the strength, weakness, learning level and area of interest students.
- It helps new students adjust and feel comfortable.
- Tobuild bonds with other students and faculty members.

STANDARD OPERATING PROCEDURE

- A bridge course for newly admitted B.A students is conducted every year before commencement of First Semester classes. The syllabus for the B.A Course is designed in such away that, equal importance is given to both Arts/humanities discipline subjects and personality development.
- Bridge Course helps the students to open up, think creatively and become responsible and independent students. I also help smooth transition to Arts Courses. The sound grasp of the fundamentals of Arts/Humanities subjects by the students lays the strong foundation for the entire THREE/FOUR Years Programme.

BRIDGE COURSE - OBJECTIVES OF THE POLITICAL SCIENCE:

- A week- long course exposes the students to understand and use of academic conventions. Especially the Political Science Bridge Course helps the students to improve their understanding and capability to apply theories in practice.
- One of the primary objectives of learning Political Science to forte civic engagement and promote active citizenship.
- Students have a basic knowledge of the Political world.
- Students gain knowledge about democratic principles, civic rights and responsibilities.
- Develop an understanding of the fundamental principles and theories of Politics and gain knowledge about contemporary Political environment.
- Understand the decision human beings make in Political settings, including those regarding the forms of government available and understand the philosophical underpinnings of Political System.

BRIDGE COURSE 2022-2023 - COMMERCE

****

"THE ESSENCE OF EDUCATION LIES IN DRAWING OUT THE VERY BEST THAT IS IN YOU"

A bridge course is a series of classes that help students transition from Intermediate level to graduation by providing them with necessary skills and knowledge about topics that will be covered in their new course.

Objectives :

- The main objective of the course is to bridge the gap between subjects studied at pre-university level and subjects they would be studying in B. Com Course.
- To enrich the students to learn basic concepts in the subjects of B. Com I semester.
- To give students confidence and skills to successfully transform to college and new curriculum
- Interactive and Active Learning by doing have been weaved into the Bridge Course.
- Active Learning with the help of other/ peer students.
- To achieve the concept of Assisted Learning.

Standard Operating Procedure

- A Bridge Course for newly admitted B.Com Students is conducted every year before commencement of First Semester Classes. The syllabus for the B. Com course is designed in such a way that, equal importance is given to both Commerce discipline subjects and personality development.

- Bridge Course helps the students to open up, think creatively and become responsible and independent students .I also helps smooth transition to commerce course..The sound grasp of the fundamentals of Commerce and Management subjects by the students lays the strong foundation for the entire Three/ Four Years Programme.

Highlights of the Bridge Course:

1) **Basics of Accounting**

Maj.Dr.B.Kalyani, Faculty, Department of Commerce explained in detail about the basic Accounting concepts, types of Accounts, important terms in Accounting and Accounting Rules. She elaborated the procedures for preparation of Trail Balance and Final Accounts

2) **Business Environment**

. Smt. B. Vanaja Ratnam Faculty, Department of Commerce explained about an Overview of Business Environment in a vivid manner

3) **Business Organization and Management:**

Smt.S.Lakshmi, Faculty, Department of Commerce explained about the basic concepts of business and management, types of Business, Business Environment, innovative techniques in business and functions of management.

4) **Information Technology:**

Smt. S. Lakshmi, Faculty, Department of Commerce gave a Overview of Fundamentals of Computers and Microsoft Office Tools.

BRIDGE COURSE FOR THE YEAR 2022-2023

The Bridge Course in Physics aims to provide a comprehensive foundation in basic physics principles for incoming students. Designed to be an introductory course, the program seeks to bridge the gap between high school and collegiate-level physics. This report elaborates on the course structure, methodology, and findings based on feedback and assessment results.

The program outcomes of a bridge course

- To familiarize students with core physics concepts that will be elaborated upon in advanced courses.
- To equip students with the skills required for problem-solving in physics.
- To introduce laboratory practices and scientific methodologies.
- To assess and identify areas where additional focus or remedial classes are needed.

Targeted audience

The Bridge Course in Physics targets:

- 1st year BSc Students.
- Students from varying educational backgrounds, including those with limited physics education in high school.

DAY-1

Date 07-11-2022

Time:10 A.M to 11A.M

Event 1. Interaction with students

2.Introduction of Physics Teaching Staff and Non-Teaching Staff

3.Visit to the physics labs

(a) Inter Lab

(b)Degree Lab

(c) Optics Lab

(d) B.G Lab

(e) Electronics Lab

Day-2

Date:08-11-2022

Time:10 A.M to 11 A.M

Topic Covered:

MECHANICS: 1.Motion in One and Two Dimensions

2.Measurement of Physical Quantities

3.Calculations using Logarithms

Day-3

Date:09-11-2022

Time: 10A.M to 11A.M

Topic Covered: 1. Equations of Motion

2. Motion of Rockets

3. GPS

DEPARTMENT OF ZOOLOGY

BRIDGE COURSE 2022-2023

*The bridge course for newly admitted students is conducted every year before the commencement of the first semester classes.

*The department of Zoology Organized a bridge course on Introduction of Animal kingdom for I CBZ students.

*Zoology bridge course topics framed by lecturers in the department.

objectives :

*The purpose of bridge course is to help students transition from Intermediate level to graduate level by developing knowledge in upcoming curriculum in Zoology.

*Lecturers of the Zoology department offering interactive and learning opportunities that engage students and help them build the skills and knowledge needed for success in zoology subject.

* This course provides a better transition phase to prepare themselves before the onset of courses for first semester. It also helps to develop process-skills and experimental, observational, manipulative, decision making and investigatory skills in the learners.

Highlights of the Bridge Course:

***Introduction of animal kingdom:**
Kum. CH.Priyanka, Lecturer in Zoology explained introduction to invertebrates and types of symmetry
***Introduction of chordates and non chordat:**
Kum.G.Divya Sri, Lecturer in Zoology explained the animal kingdom and types of coelom

DEPARTMENT OF CHEMISTRY

BRIDGE COURSE

****

"THE ESSENCE OF EDUCATION LIES IN DRAWING OUT THE VERY BEST THAT IS IN YOU"

A bridge course is a series of classes that help students transition from Intermediate level to graduation by providing them with necessary skills and knowledge about topics that will be covered in their new course.

Objectives :

- The main objective of the course is to bridge the gap between subjects studied at pre-university level and subjects they would be studying in B.Sc Course.
- To enrich the students to learn basic concepts in the subjects of B.Sc I semester.
- To give students confidence and skills to successfully transform to college and new curriculum
- Interactive and Active Learning by doing have been weaved into the Bridge Course.
- Active Learning with the help of other/ peer students.
- To achieve the concept of Assisted Learning.

Standard Operating Procedure

- A Bridge Course for newly admitted B.Sc Students is conducted every year before commencement of First Semester Classes. The syllabus for the B.Sc course is designed in such a way that, equal importance is given to both Chemistry discipline subjects and personality development.
- Bridge Course helps the students to open up, think creatively and become responsible and independent students. I also help smooth transition to Chemistry course. The sound grasp of the fundamentals of Chemistry and Management subjects by the students lays the strong foundation for the entire Three/ Four Years Programme.
- **Highlights of the Bridge Course:**

1) States of Matter

Dr.M.Sunitha, Faculty, Department of Chemistry explained in detail about 1. The three states of matter 2. Intermolecular interaction 3.Hydrogen bonding 4. The gaseous state 5.Boyle's law, Charles law. 6. Gay Lussac's law, Avogadro law 7. Kinetic theory - molecular speeds 8. Liquid state 9. Vapour pressure 10. Surface tension 11.Viscosity. lecture come demonstration method atomic model blackboard

2) Periodic table

. Smt. V.B.T.Sundari Faculty. Department of Chemistry explained about Overview of Periodic table Periodic trends in properties of Elements - a) Atomic radius b) Ionization potential c) Electro negativity d) Ionic radius e) Density.

3) Fundamentals of Organic Reaction Mechanism:

Smt. V.B.T.Sundari, Department of Chemistry explained about the basic concepts stability of Carbocation, Carbanion, and Carbon free radical 2. Types of Reagents- Electrophiles and Nucleophiles 3.Curved arrow notations, cleavage of bond-homolytic and heterolytic cleavage 4. Resonance effect, Inductive effect, Mesomeric effect and Steric effect 5.Types of reactions- Addition, Elimination, Substitution, and Rearrangement

4) Structure of Atom:

Dr.M.Sunitha, Faculty, Department of Chemistry gave an Overview of Structure of Atom Quantum number - i) Principal quantum number ii) Azimuthal quantum number iii) Magnetic quantum number iv) Spin quantum number, Shape of orbitals - a) s – orbital b) p – orbital c) d – orbital a) Aufbau principle b) Pauli's exclusion principle c) Hund's rule.
