

1. Title of the Practice

CAMPAIGN AGAINST USAGE OF PP CARRY BAGS

2. Objectives of the Practice

Now days people are addicted to PP carry bags usage. The PP carry bags are not biodegradable hence their usage should be stopped.

3. The Context

Soil will lose its fertility, thereby plants doesn't grow to the expected extent which leads to shortage of food grains. In order to overcome this problem the usage of PP carry bags should be stopped and in place of these bags made up of biodegradable materials like cloths or papers should be used.

4. The Practice

Department of Chemistry is in practice of campaigning about the hazardous dangers of usage PP covers and the usage of bags made up of biodegradable materials.

5. Evidence of Success

Department of Chemistry stitched cloth bags and involved the students in making of paper bags. These are distributed to the RMC sanitary workers and instructed them to use these bags instead of PP carry bags. The RMC sanitary workers expressed their feelings with full satisfaction.

6. Problems encountered and resources required

The preparation of cloth bags is an expensive task. It is not possible for the staff of the department to contribute always, hence financial aid should be supported to continue the practice.

1. Title of the Practice

SKILL DEVELOPMENT – PREPARATION OF HOUSEHOLD CHEMICALS

2. Objectives of the Practice

The role of household chemicals is alarming now days with the inflation of prices. In order to overcome this at least the daily household chemicals are to be prepared ourselves, which leads to minimize the family expenditure.

3. The Context

The household chemicals and bath soaps can be prepared with meager effort and expenditure. The Bath Soaps, Washing powder, cleaning powder, Vaseline and pain balms can be prepared in the houses itself with less effort.

4. The Practice

Department of Chemistry is in practice of encouraging the students in preparation of Bath Soaps, Washing powder, cleaning powder, Vaseline and pain balms.

5. Evidence of Success

Department of Chemistry involved the students in the preparation of household chemicals and made them more proficient in preparation. With the sale of household chemicals ***meager revenue is also generated.***

6. Problems encountered and resources required

The preparation of household chemicals is toxic hence precautions should be taken. In order to prepare on large scale financial aid is required to purchase gloves etc.,.
