TEACHING PLAN (SYNOPSIS)

Month: October

Subject: Botany

Topic: Introduction of mushroom VII C

Topic to be covered	Mushroom
Learning Objectives	Students study the morphology & types of
Previous knowledge to be assumed	Basidial basidiomycetes - Intermediate level
Topic Synopsis	mushroom structure

mushroom is a macrofungus with a distinctive fruiting body

Structure of mushroom

terrestrial fruiting body can be differentiated into 3 types

a. Stipe - basal part of the basidiocarp

b. Pileus - The stipe at its top supports a broad umbrella shape cap - pileus

* plates of tissues known as gills

T.S of gills - 3 types

a. Trama - middle part of the gill

b. Hg. sub-Hymenium - trama region curve outwards towards each side surface of the gill

c. Hymenium - outer most layer and lies the surface

III Annulus - Annulus is a remnant of velum still attached to the stipe in form of a ring

Thrust areas	Cultivation of mushroom
Skill to be learnt by Student	Cultivation of mushroom
Examples/Illustrations	Ganoderma lucidum, Pleurotus florida
Additional Inputs	Photographs, Spores

Teaching Models used	live specimens of mushroom
Teaching Aids used	Black board chalk, Photocopy
References cited	
Student Activity planned after the teaching	
Activity planned outside classes	diagram drawn by student
Any other	Students interaction

Edible mushroom and poisonous mushroom

Edible mushroom

* annulus ring (Button mushroom) in the middle of the stalk and volva (Paddy straw mushroom) at the base of the stalk

* Absence of annulus ring and volva in oyster

* delicious in taste

Non-edible (or) Poisonous mushroom

Poisonous mushrooms are commonly called Toadstool

* They are very soft

* colorful and attractive

Nutraceutical and medicinal value

* Nutra - word nutrition + ceutical - Pharmaceutical

* Important mushroom - Auricularia, Ganoderma

* fruiting body, which is consumed in the form of capsule (or) tablet as a dietary supplement

* Source of nutraceuticals in nutrient balancing, strengthening, human immune system

* They contain high amounts of essential amino acids, proteins, carbohydrates, vitamins

* edible mushroom nearly equals that of milk and meat

Subject: Dairy Technology Botany

TOPIC: Dairy Technology

Paper: II

Hours Required	2hr
Learning Objectives	milk storage
Previous Knowledge to be reminded	breeding
Topic Synopsis	method of selection

Methods of selection of dairy animal:-

Criteria for the selection of dairy animals:-

- ① young animals.
- ② level of performance:-
 - ① Physical fitness
 - ② Health
 - ③ body conformation.
 - ④ Temperament or behavior.
 - ⑤ quality of products.
 - ⑥ mothering ability.
 - ⑦ adaptability.

Selection of method:-

Individual selection of production recording
 family selection Proseny teaching
 Calling of animal.

System of inbreeds and cross breeds:-

Breeding system.

- ① inbreeds.
 - close breeding.
 - line breeding.
- ② out breeding.

- ① line crossing.
- ② out crossing
- ③ cross breeders
- ④ cross up.

Thrust areas	-
Skill to be learnt by Student	-
Examples/Illustrations	Robotic milking
Additional Inputs	land, labor, cow, feed

Models used	Photography
Aids used	Black board

Feedback Report 2022-2023

For the academic year 2022-2023, feedback on the college functioning including teaching learning process was collected from the students, teachers, parents and alumni in online mode. For the students, a feedback form was designed with 20 questions on 20 parameters with 5 options namely – Strongly Agree, Agree, Neutral, Strongly disagree and Disagree.

179 responses collected from the students. Before collection, the purpose of feedback was explained to the students. If the students could not understand any parameter, the mentors explained the parameter and its importance. With the help of the faculty, the IQAC arranged for the analysis of the collected data; the analysis was tabulated and also presented in a graphical format. For the teachers, alumni and parents, a feedback form was customized with 10 questions covering different areas of the college functioning. The analysis report reveals that:

- Stakeholders expressed their opinion that supports the students to prepare for competitive exams.
- More Cultural activities are to be organized in the college

Action Taken Report on Feedback -2022-2023

The feedback report for the academic year 2022-2023 was placed before the staff council meeting chaired by the principal of the college. The council discussed the report in detail. For all the positive feedback about the teaching learning process, the efforts of the teachers were appreciated. The meeting resolved to take the following measures to improve the overall functioning of the college.

Student Centered Learning (SCL) practices in curriculum delivery and transaction were given much emphasis.

Based on the parents & alumnae feedback, PG coaching is continued in a more structured manner and offered support to the students seeking higher education.

The mentors were specifically directed to provide emotional support to students and be accessible to them even out of the classroom, following the spirit of the Mentor Mentee System (MMS) in place.

BRIDGE COURSE

2022 - 2023

"THE ESSENCE OF EDUCATION LIES IN DRAWING OUT THE VERY BEST THAT IS IN YOU"

A bridge course is a series of classes that help students transition from Intermediate level to graduation by providing them with necessary skills and knowledge about topics that will be covered in their new course.

Objectives :

- The main objective of the course is to bridge the gap between subjects studied at pre-university level and subjects they would be studying in B.Sc.(CBZ) Course.
- To enrich the students to learn basic concepts in the subject of Botany I semester.
- To give students confidence and skills to successfully transform to college and new curriculum
- Interactive and Active Learning by doing have been weaved into the Bridge Course.
- Active Learning with the help of other/ peer students.
- To achieve the concept of Assisted Learning.

Standard Operating Procedure

- A Bridge Course for newly admitted BSC (CBZ) Students is conducted every year before commencement of First Semester Classes. The syllabus for the Botany course is designed in such a way that, equal importance is given to all subjects and personality development.
- Bridge Course helps the students to open up, think creatively and become responsible and independent students . I also helps smooth transition to Botany course..The sound grasp of the fundamentals of Botany subject by the students lays the strong foundation for the entire Three/ Four Years Programme.

Highlights of the Bridge Course:

1) Fundamentals of Microbes and Non-vascular Plants:

Smt.M.Sridevi , Faculty, Department of Botany explained in detail about

1. Plant kingdom Classification
2. Fungi & Lichens
3. Bryophytes
4. Taxonomy

2) Basics of Non-vascular Plants and Vascular Plants:

. Kum.P.Sridevi Faculty, Department of Botany explained about

1. Algae
2. Bacteria

3) Basics of Vascular Plants and Phytogeography :

Smt. T. Nagamuni Faculty, Department of Botany gave a Overview of

1. Gymnosperms
2. Virus

IDENTIFYING SLOW, MODERATE AND ADVANCED LEARNERS

2022-2023

Student Information Form

Every faculty mentor maintains a Students' Record

Following records are to be maintained by Class mentor of each class:

- (i) Student Information record
- (ii) Marks Statement (Internal Assessment and University Exams)
- (iii) List of slow, moderate and advanced learners of their batch.
- (iv) Remedial measures taken and details (circulars and notices)
- (v) Records of activities for three types of learners

Process to identify Slow, Moderate and Advanced Learners

The process of identifying slow, moderate and advanced learners is as shown in the table.

All students of a particular batch are assessed on following parameters:

S.No.	Assessment Criteria
1.	Problem Solving Skills:
	Previous University Exam Score
	Class Tests
	Attendance
	Assignments and Tutorial
2.	Other parameters:
	Ability to answer the questions in class
	General awareness
	Attentiveness

Based on above assessed parameters students are classified into 3 groups:

Slow Learners : are those whose learning pace is slower than their peers. They are unable to retain what they learn. They also have a very short attention span. Learning does not happen incidentally for slow learners and they have to be directly taught. They cannot link one learning to another unless specifically told. They require more personal attention of the teacher.

Moderate Learners : Those who have immature listening / attention/ social skills/ poor auditory and visual memory.

Advanced Learners : are those students who are ahead on the learning dimensions for the betterment in their life.

All the above details are provided by the concerned course handling faculty members.

INITIATIVES FOR SLOW LEARNERS

The following activities are conducted for slow learners:

- ❖ Tutorial, Discussions, Interactions,
- ❖ Concept clarification and problem solving exercises
- ❖ Bilingual explanation and discussions
- ❖ Provision for simplified but standard Lecture notes /course material
- ❖ Revision of topics
- ❖ Enhancement of Communication Skills and Art of Reading /Learning
- ❖ Remedial classes conducted for Slow Learners.
- ❖ Special Coaching class and Counselling is given to slow learners.
- ❖ Previous year Question papers and Question Banks for all subjects are circulated among slow learners.
- ❖ Students are given repeated practice on important questions

INITIATIVES FOR MEDIUM / MODERATE LEARNERS

The following activities are conducted for MEDIUM LEARNERS

- ❖ Revision of topics
- ❖ Special Coaching class and Counselling is given to slow learners.
- ❖ Previous year Question papers and Question Banks for all subjects are circulated among slow learners.
- ❖ Students are given repeated practice on important questions

- ❖ Guiding the students for PG CET/ICET/Competitive Examinations
- ❖ Concept clarificatio

INITIATIVES FOR ADVANCED LEARNERS

The following Special activities are conducted for Advanced Learners:

- ❖ Bright and diligent students are motivated and inspired to get university ranks.
- ❖ Semester toppers and university rank holders are honoured with certificates and cash prizes.
- ❖ Encouraging to participate in various symposiums like quiz, poster presentation, Conferences, inter-institution competition etc.
- ❖ Guiding the students for PG CET Competitive Examinations.
- ❖ Guiding and encouraging to publish/present research papers in conferences/Journals and college News Letters
- ❖ Guiding for career planning.

REMEDIAL COACHING

Not all students learn at the same pace; some students require extra attention. The basic premise of remedial coaching is to help students to catch-up to their peers. When students academically fall behind, a gap opens between their abilities and that of their peers. Over the time, this gap gathers a place and widens to the point where learning in other area is affected.

Remedial Coaching focuses on basic concepts, develop better study habits and to develop confidence in the students for respective subjects. Remedial classes help to close the gap between what a student knows and what he is expected to know.

OBJECTIVES:

- 1) To identify the potential learning gaps those are hindering the students' progress in the classroom.
- 2) To improve Academic Skills of the students in the Botany Subjects.
- 3) To raise the level of comprehension of basic subjects to provide a strong platform for further academic work.
- 4) To strengthen their understanding, widen knowledge base and attitudes in the concerned subjects.
- 5) To improve the performance and quality of students and capacitated them

REMEDIAL CLASSES:

Remedial classes are organised in college to assist weak students or the slow learners to improve their performance and understand the basic concepts of a course. Individualised attention during remedial classes helps the students to overcome the subject specific difficulties and improve their grades in final university examination. The main objective of these classes is to provide student centric education to cater the individual needs of the students with well-designed strategies.

The following procedure is followed to conduct remedial classes:

A. SELECTION OF STUDENTS:

First of all, the courses are selected on the basis of previous semester result and level of difficulty. Students of on-going classes are identified on the basis of previous semester examination marks and students of first semester are identified on the basis of marks in Mid Semester Tests and continuous internal evaluation

from all UG course. Backlog students and students who voluntarily want to join classes because of difficulty to pace with class are also facilitated with remedial classes.

B. COURSE SCHEDULE PREPARATION:

Schedule for remedial classes is prepared, usually conducting classes before or after regular class hours and at the end of the semester i.e. after the completion of the syllabus in the examination preparatory days. Students are divided into small sized groups. Concerned subject Lecturers in the departments is assigned duty to assist one group. The record of attendance is also maintained by the faculty members.

C. ANALYZING WEAKNESS AND STRENGTHS OF STUDENTS:

After the selection of students and allotment of groups the concerned teacher evaluates the weak points of the students from the previous performance in examinations. The teacher selects the topics from the course which the students were not able to understand during regular classes. He also conducts a discussion with the students to find out the reason of unintelligibility of those topics. After discussion with the students, he/she comes to know about strong and weak points of the student and in consequence to this he/she designs his/her strategy for remedial classes.

D. CONDUCT OF REMEDIAL CLASSES :-

Different student centre techniques/ strategies are used for remedial classes to achieve desired level of learning. Concepts are divided in small parts and demonstrated in simple language. Basics of subjects are cleared through individualized methods, notes on important topics and University question bank are provided. Faculty members give academic as well as personal advice or counseling to student. Revision of important topics is focused and teachers discuss the way of presenting answers in the exam to score good marks. Critical topics are re-explained for better understanding by the teacher. Regular tests are conducted to assess the progress of students. Teachers communicate regularly with parents regarding.

E. PROGRESS REPORT:-

Each faculty member, who teaches remedial classes, maintains all the records like attendance, topic covered, teaching learning material etc. The records are kept in proper manner as prescribed by higher authority from time to time. Performance of the enrolled students in final semester examination is the key indicator of success. After the declaration of results of final semester of students a progress report is prepared by each faculty member in prescribed format explaining the number of enrolled students and pass percentage of the group allocated. If required, strategies of teaching are re-designed for next sessions according to progress report.

Abstract:

All plants synthesize a number of chemical compounds for different functions, plants have properties like defense and give protection against diseases produced by virus, bacteria and fungi, etc., The present study showed that the ratio of medicinal plants that are maintained in my Dhanvanthari medicinal garden. These plants were used as home remedies to cure diseases. There are 723 plants in total included in 65 species. These 65 plants are included in 34 families. Out of 723 plants, herbs are 455, shrubs are 152, trees are 32, creepers are 65 and climbers are 19 in number. Herbs are more in number and climbers are least in number. Abstract

In India Banana is cultivated in an area of 830.5 thousand ha and total production is around 29,779.91 thousand tons. In the present study four pathogens were identified on the banana tree (*Musa acuminata* L.). Collected diseased parts of the banana plants in Rajahmundry and then samples of infected tissue such as corm, root, leaf, pseudostem, flower and fruit were collected and cultured. In the present study four pathogens such as *Fusarium* sps, *Alternaria* sps, *Gloeosporium* sps and *Erwinia* sps were isolated from banana Leaf, Leaf spot, fruit and Rhizome respectively. These pathogens cause diseases in banana plant so it effects the yeilding of banana plants.

Introduction :

Banana is a significant natural product harvest of numerous tropical and subtropical locals of India. It is developed in India about of 830.5 thousand ha and all out creation is around 29,779.91 thousand tons. In India mainly banana developing states are Tamil Nadu, Maharashtra, Gujarat, Andhra Pradesh and Karnataka. The worldwide creation of banana is around 102028.17 thousand tons of which India contributes 29.19%. Other than India, other significant banana delivering nations are China, Philippines, Ecuador, Brazil and Indonesia.

In India banana is developed under different circumstances and creation frameworks. Determination of assortments, hence depends on countless assortments taking care of different sorts of necessities and circumstances. However, around 20 cultivars viz. Bantam Cavendish, Robusta, Monthan, Poovan, Nendran, Red banana, Nyali, Safed Velchi, Basarai, Ardhapuri, Rasthali, Karpurvalli, Karthali and Grandnaine and so forth.

Grandnaine is acquiring prevalence and may before long be the most preferred variety because of its resistance to biotic burdens and great quality packs. Bundles have all around dispersed hands with straight direction of figures, greater in size. Organic product creates alluring uniform yellow tone with preferred self life and quality over different cultivars.

Plants are contaminated by various types of microbial microorganisms and the expected inoculum for disease is available in the dirt, water and air, not withstanding plant have. Phytofungus microbes present difficult issues overall in horticulture and food industry, particularly in the subtropical and tropical locals. Moreover, many likewise produce mycotoxins, which are harmful to

BEST PRACTICES

**PREPARATION OF
DHRAVAJEEVAMRUTHAMU**

OBJECTIVES OF THE PRACTICE :

- To avoid pesticides and maintain a healthy environment.
- To promote organic sustainable agriculture practices.
- DhravaJeevamrutham has beneficial microorganisms that help soil fertility. It turns normal soil into rich healthy soil and helps plants to grow faster and produce good crops.

NEED ADDRESSED AND THE CONTEXT:

- It can be made at minor cost with the plant leaves and urine available locally.
- It has no side effects on the soil and the produce.
- It boosts the plant and its growth, gives a good yield.
- Gives resistance against pests and diseases.
- Increases beneficial organism activity and promotes organic carbon in the soil.
- It is completely organic and provide all the nutrients required for plant growth and it also prevents plants from pest and diseases. Unlike other organic manure that takes months to be prepared, you can prepare dhrava jeevamrutham within a week.

THE PRACTICE:

Mr. P. V.S. Gowtham, Master trainer, H.R of Rythu sadhikara Samstha guided the students of B.Sc BZC to prepare Ghana and Dhrava jeevamruthamu by using Cow dung, cow urine, Jaggery and basan powder in the college campus under best practice organized by Botany of the department.

PREPARATION:

- For the preparation of 100 lit of Dhravajeevamruthamu, take 100 liter water in a drum and add 10 kg cow dung plus 10 lit in cow urine.
- Mix well with the help of wooden stick add 2 kg jaggery and 2 kg of Besan powder mix this solution well with wooden stick.
- Keep this solution for fermentation for 5 to 7 days.

CONCLUSION:

The preparation methods are helped the B.Sc students to know the procedure, importance and usage of dhravajeevamruthamu. Students spend their time and actively participated in the preparation of dhravajeevamruthamu. The main aim of this activity is students should aware of the advantages of organic farming and sustainable agricultural practices. It is a good skill development practice to the students.
