IQAC AND SCIENCE ASSOCIATION

REPORT

Recognizing the prevalence of cervical cancer the IQAC and Science Association has conducted a guest lecture on **Paths to Prevent HPV** in connection with National Cancer Day on 07-11-2020 at Pandiri Veeranna hall by Dr. M.Divya, Obstetrics and Gynecologist, Bhaskar Raju Hospital, Women and Child Care, Rajamahendravaram.

AIM AND OBJECTIVES:

To create awareness on the cervical cancer

To promote HPV vaccination as a control measure for cervical cancer

Dr. M.Divya emphasized that worldwide, cervical cancer is the fourth-most common type of cancer and cause of death in women. She mainly focused on the causative and sub types of cervical cancer, symptoms, risk factors, diagnosis procedure for the early and effective identification of cervical cancer and the efficacy of the HPV vaccine as a controlling measure.

OUT COME:

62 students from various disciplines attended the guest lecture.

At the end of the session the students acquired knowledge on the following:

Early identification of cervical cancer

Significance of HPV vaccine

Recent advancements in the treatment

HEALTH AND HYGIENE

REPORT

Anaemia is a serious global public health problem that particularly affects young children, menstruating adolescent girls and women, and pregnant and postpartum women. WHO estimates that 40% of children 6–59 months of age, 37% of pregnant women, and 30% of women 15–49 years of age worldwide are anaemic.

To eradicate the anaemic condition identifying the anaemic ones is the foremost criterion.

In this connection the Women Empowerment cell and IQAC has conducted Hb test to the students with the help of Asha workers on 2-3-21 at Room no-15 from 10A.M – 2P.M

AIMS AND OBJECTIVES:

- To determine the levels of haemoglobin there by identify the anaemic students
- To educate the students about HB percentage
- To assess the health status with respect to anaemia

OUTCOMES:

162 Students under went Hb test

At the end of the programme

- anaemic students were identified at an early stage
- students were aware of health related complications due to anaemia
- students were able to recognize that well- balanced diet rich in iron , vitamins and minerals play a vital role in the production of Haemoglobin
